## LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

When you choose Eva-Last, you're choosing the best solution for both you and the environment. Eva-Last products are the low-maintenance, reliable alternative to wood that consistently outperform timber and other composite materials. They're also the environmentally friendly material choice that is gentler on the Earth.

### BAMBOO WASTES LESS & PROVIDES MORE

Eva-Last uses bamboo in its composite production. Bamboo can grow up to 30 times faster than timber and releases 35 percent more oxygen into our air than most hardwood trees. It can be made into composite with only 2 percent wastage (compared to over 80 percent wastage with timber) and is naturally antibacterial.

### USE OF RECYCLED PLASTIC

By using recycled waste plastics, in combination with easily replenishable bamboo fiber, we are able to produce a highly durable composite product while saving millions of tons of plastic from entering landfills and oceans. Every year Eva-Last recycles over 26,000 tons of plastic. Recycling one ton of plastic results in carbon dioxide savings of approximately 0.73 tons – the same as traveling nearly 2,500 miles in a car.

### USE OF SOLAR POWER IN THE MANUFACTURING PROCESS

Traditional manufacturing is an energy-intensive endeavor. That's why Eva-Last took the decision to start moving towards manufacturing using solar energy. Since 2017, 32,858 solar panels, or 955,000 ft<sup>2</sup> of solar panels, have been installed. This leads to a saving of 2,000 tons of CO<sub>2</sub> every single day.

Eva-Last has been at the forefront of the green building industry since its inception in 2007. We are dedicated to consistently improving how we serve the environment and our clients. From the recycled and renewable raw ingredients we use to create our products, to the solar power we harness to manufacture, we are proud to offer holistically sustainable building products.

**Holistically sustainable building products  
from a globally reputable brand**

# TECHNOLOGIES

Eva-Last has developed a resilient collection of bamboo composite technologies, each with its own unique characteristics and set of benefits. These versatile materials can be used in a variety of applications such as decking, stairs, trim, screening and wall cladding.

## Pioneer

### THE ART OF WOOD, WITHOUT THE IMPACT

The Pioneer range advances composite aesthetics with high-resolution digital replications of hardwoods and rare timbers.

## Apex PLUS

### REINFORCED, CAPPED BAMBOO FOAMED-PVC COMPOSITE

Apex PLUS offers you a resilient and natural looking composite with a glass fiber-reinforced core, that allows for increased strength and span capability.

## Infinity

### CAPPED BAMBOO COMPOSITE

Infinity composite adds value and good looks to your outdoor space and to your lifestyle by giving you steadfast composite that lasts for decades.

The logo for EVA-LIFE is displayed in a stylized, white, blocky font. The letters 'EVA' are on the left, followed by a hyphen, and 'LIFE' is on the right. A registered trademark symbol (®) is located to the upper right of the 'E' in 'LIFE'.

**EVA-LIFE®**

**INSPIRED BY NATURE, DESIGNED FOR LIFE.**

The background of the advertisement is a photograph of an outdoor deck. The deck is made of dark brown bamboo composite decking. On the deck, there are two white armchairs with light-colored cushions and blue and white patterned throw pillows. A small, round, white coffee table with four light-colored wooden legs sits on a blue and yellow patterned rug. On the coffee table, there is a black tray containing several wooden blocks with 'X' and 'O' characters, used for a board game.

# Pioneer

## THE ART OF WOOD, WITHOUT THE IMPACT

The Pioneer range advances composite aesthetics with high-resolution digital replications of hardwoods and rare timbers, playing a vital role in preserving prized trees for future generations. A bamboo foamed-PVC and glass fiber-reinforced core provides increased strength and span capability and reduces expansion and contraction. The advanced wear layer protects the hardwood aesthetic against fading, scratches, and stains.

**GFR** | GLASS FIBER  
REINFORCED

## REDEFINING PVC COMPOSITE

Pioneer redefines what composite decking is by capturing the soul and beauty of hardwoods in every grain and hue. Engineered with next-generation technology, it delivers the timeless look of natural timber for decades to come.

## TAKE HOME THE BENEFITS

### REALISTIC AESTHETIC

Advanced digital replications of rare wood for an exceptionally natural look

### ECO-FRIENDLY

Prevents deforestation by capturing the beauty of endangered timbers without felling

### ATTAINABLE LUXURY

Enjoy the look of expensive rare woods in long-lasting composite

### INCREASED SPAN

Reinforced for improved strength & span capability

### MORE STABLE

Less movement from expansion & contraction

### WEAR LAYER

Wear layer offers protection against stains, scratches, & fading

### DECAY RESISTANT

Long-lasting & resists insects, moisture, & weather

### LOW-MAINTENANCE

Enhanced surface for easy cleaning & optimal longevity

# Pioneer

## PRODUCT RANGE

Pioneer can be used as stunning outdoor decking or as open joint cladding in vertical or wall applications. Grooved and starter board profiles come in two convenient widths, and fascia and riser boards complete the collection. All Pioneer boards work just like wood and can be cut using standard tools.

Cross section	Description	Dimensions	Lengths	Joist spacing	Fasteners
	Grooved board	<b>1 x 6</b> 0.83" x 5.70" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m & 6 m)	<b>Up to 24"</b>	Chain collated clip
	Starter board	<b>1 x 6</b> 0.84" x 5.70" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS
	Wide grooved board	<b>1 x 8</b> 0.83" x 7.48" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m & 6 m)	<b>Up to 24"</b>	Chain collated clip
	Wide starter board	<b>1 x 8</b> 0.84" x 7.48" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS
	Riser board Non-GFR	<b>1/2 x 8</b> 0.55" x 7.24" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws
	Fascia board Non-GFR	<b>1/2 x 10</b> 0.59" x 9.85" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws

SPAN 24" OC

\*The HULK Fasteners range includes Chain collated clip, color matching composite deck screws (CDS), and color matching trim screws.

## PIONEER COLOR GUIDE

Pioneer uses high-resolution digital replications of timber to create composite so natural looking that it's indistinguishable from prized exotic hardwood.

### INDIGENOUS COLLECTION

The Pioneer Indigenous Collection showcases high variegation in color & texture for a noteworthy and captivating authentic replication of hardwood timbers.

### CLASSICS COLLECTION

The Pioneer Classics collection offers subtle variegation in color and texture for a refined aesthetic.

Actual colors may vary depending on printing or screen variations. We recommend looking at a physical sample for the most accurate color representation.

# Apex PLUS

## BETTER PERFORMING, BETTER LOOKING COMPOSITE

Apex PLUS takes the benefits of Apex composite to the next level. It offers the natural look of Apex in cutting-edge composite technology. Its improved bamboo foamed-PVC and glass fiber-reinforced core creates a more durable and versatile board with increased span capabilities and greater stability. This eco-friendly and slip resistant composite is low maintenance and faces Mother Nature's toughest conditions with reliable long-term performance and timeless style.

8110-2314-0500

Approved for use in the Wildland Urban Interface areas

## REINFORCED, CAPPED BAMBOO-PVC COMPOSITE

Apex PLUS offers you a resilient and natural looking composite. Its bamboo foamed-PVC and glass fiber-reinforced core allows for increased span capability over Apex. Low-maintenance Apex PLUS is more stable with less expansion and contraction than its predecessor and requires only basic cleaning for optimal longevity. Its protective cap is made from a resilient acrylic polymer coating for long-term fade, scratch, and stain resistance. Apex PLUS also provides decay resistance against insects, moisture, and the elements. Apex PLUS is an eco-friendly alternative to timber that prevents deforestation and premature deck replacement and uses solar power within the manufacturing process.

optimal longevity

### PROTECTIVE CAP

Fade, scratch, & stain resistant  
capping technology

### DECAY RESISTANT

Resists insects, moisture, & weather

### ECO-FRIENDLY

Long-lasting & prevents deforestation

# Apex PLUS

## APEX PLUS DECKING PROFILE TYPES

Apex PLUS is available in two profile designs to let you build your dream outdoor space. Both profiles offer the renowned Apex color technology and composition with the state-of-the-art Apex PLUS reinforced core. Grooved boards and starter boards offer the complete solution for any outdoor decking project. Starter boards are specifically designed for creating perfect picture frames, and classy deck and stair edges. Create an uninterrupted installation with Chain collated decking clips and color matching composite decking screws by HULK fasteners.

Cross section	Description	Dimensions	Lengths	Joist spacing	Fasteners
	Grooved board	<b>1 x 6</b> 0.88" x 5.51" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>Up to 24"</b>	Chain collated clip
	Starter board	<b>1 x 6</b> 0.90" x 5.51" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS
	Square edge board	<b>1 x 6</b> 0.90" x 5.51" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Composite Decking Screws (CDS)
 SPECIAL ORDER ONLY	Wide grooved board	<b>1 x 8</b> 0.88" x 7.48" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>Up to 24"</b>	Chain collated clip
 SPECIAL ORDER ONLY	Wide starter board	<b>1 x 8</b> 0.90" x 7.48" actual	<b>20'</b> (6 m)	<b>Up to 24"</b>	Chain collated clip & CDS

Single sided grooved and square edge decking

## COLOR RANGE

Apex PLUS dual color range adds an additional layer of color to each board to further enhance its natural look. The variance in shades within a single composite profile beautifully showcases the color tones found in timber making your composite all the more striking. Dual tone colors are ideal for mid-to-large-scale composite decks and projects or other areas that are all about that natural look.

Actual colors may vary depending on printing or screen variations. We recommend looking at a physical sample for the most accurate color representation.

# Infinity

## ULTIMATE PEACE OF MIND

Infinity bamboo composite is the ultimate in durability and one of the toughest co-extruded composite decking ranges available. Its resilient protective cap made of an advanced polymer resists scratches, fade, mold, and mildew, and makes Infinity exceptionally low-maintenance, with only the most basic cleaning required for optimal longevity. Infinity offers decay and weather resistance with top protection from insects and harsh weather. Its streaked color variation provides a natural look that embodies the essence of timber. Enjoy the stain and slip resistance of this environmentally friendly alternative to timber, that is holistically sustainable from its manufacturing to its use of raw material.

## CAPPED BAMBOO COMPOSITE

Infinity composite adds value and good looks to your outdoor space and your lifestyle by giving you steadfast composite that lasts for decades. Find the peace of mind that comes with creating a deck that's built for the real outdoors, complete with family gatherings, lively get-togethers, and rejuvenating moments of relaxation.

*Infinity*

## INFINITY DECKING PROFILE TYPES

Infinity capped bamboo composite adds durability and functionality to your outdoor space in a range of profile designs. Grooved decking boards install easily with hidden clips while square edge boards install with conveniently color matched top fixing screws. The ultra-lightweight Infinity IS (I-Series) range utilizes the classic I-beam shape to create an even lighter weight profile available in grooved decking, starter board, and fascia options.

Cross section	Description	Dimensions	Lengths	Joist spacing	Fasteners
	Starter board	<b>1 x 6</b> 0.92" x 5.35" actual	<b>20'</b> (6 m)	<b>16"</b>	Chain collated clip & CDS

	I-Series grooved board	<b>1 x 6</b> 0.91" x 5.35" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>16"</b>	Chain collated clip
 SPECIAL ORDER ONLY	Wide I-Series grooved board	<b>1 x 7</b> 0.91" x 6.83" actual	<b>12', 16', &amp; 20'</b> (3.6 m, 4.8 m, & 6 m)	<b>16"</b>	Chain collated clip
	Riser board	<b>1/2 x 8</b> 0.65" x 7.24" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws
	Fascia board	<b>1/2 x 12</b> 0.71" x 11.90" actual	<b>12'</b> (3.6 m)	<b>12"</b> Non-load bearing applications only	Trim screws

## COLOR RANGE

Infinity composite offers exceptionally natural looking colors thanks to its advanced color technology that gives each board unique color variation to embody the essence of timber. This specialized color streaking technique also ensures that no two boards are identical and that all boards boast the beautiful appearance of wood. Choose from a range of hues and tones to complement your space and style.

Actual colors may vary depending on printing or screen variations. We recommend looking at a physical sample for the most accurate color representation.

# HULK FASTENERS.

FASTENED. FOR LIFE.

## DESIGNED FOR PROFESSIONALS. PERFECT FOR NOVICES.

Eva-Last has developed a range of fasteners that thoroughly complements our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck throughout its lifespan.

### FACE FASTENERS

The coating employed for our HULK fasteners ensures the fixing system supports your deck throughout its lifespan.

for metal frames

# STARBORN®

Eva-Last has partnered with Starborn to offer an expanded range of decking fasteners and pro plug systems designed specifically for Eva-Last decking. All products are available through Starborn's nationwide dealer network.

## LOW ENVIRONMENTAL IMPACT

Holistically sustainable manufacturing & use of raw materials

# CHOOSE SUSTAINABLE BUILDING MATERIALS

## RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically eco-conscious.

Every Eva-Last range pairs recycled raw ingredients with bamboo for a stronger, more sustainable composite. Bamboo rejuvenates over 30 times faster than traditional hardwoods and it releases 35% more oxygen into our air. Eva-Last is internationally recognized for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.

- Made from recycled materials
- No trees felled
- No treatment or toxic chemicals required for maintenance
- Solar power used in the manufacturing process
- Reduced impact on landfills
- Reduced carbon footprint
